

LEON SPEAKERS

CUSTOM AUDIO

—— LEON SPEAKERS ——

THE FINE ART *of* CUSTOM AUDIO

Art is an evolution. A balance of craftsmanship, creativity, and vision. While our company has evolved over the last 20 years, our vision has remained the same: to mix art with audio and design with technology. From inspiration to fabrication, our team of designers, engineers, and craftsmen meticulously produce the finest quality speakers, benchmade in the USA.

Leon is recognized throughout the industry for our award-winning sound and unrivaled level of customization. Each speaker that leaves our shop is built by hand, custom tailored to your exact specifications. Whether it is designed to match the dimensions of your display or finished to integrate with the décor, we promise to deliver Picture Perfect Sound®.

— HORIZON SERIES —

THE SOUND STANDS OUT, THE SPEAKER BLENDS IN

Bring premium sound to any TV with our Horizon Series soundbars. Custom-built to match the exact width of the display for a streamlined look, the Horizon Series provides an immersive audio experience with a discreet aesthetic.

Horizon Soundbars

Models ranging from ultra-thin to reference-grade to perfectly suit any space.

Available in 18 models

— EDGE MEDIA FRAME —

THE FINISHING TOUCH FOR ANY TV

Inspired by midcentury media furnishings, our Edge Media Frame is handcrafted out of solid hardwood and encases any TV and soundbar in one simple design. Framing all sides of the display while neatly concealing the mounting and wiring, Edge brings the finishing touch to any home entertainment system.

Edge Media Frame
Solid hardwood frame available in Light Oak, Walnut, Cherry, Grain White, Grain Black, Matte White, Matte Black, or any custom color.

Standard Finishes

— PROFILE SERIES —

HIGH-PERFORMANCE, LOW PROFILE

Widen the soundstage with our Profile Series sidemount speakers that allow the speakers to blend seamlessly with the display. Handcrafted to match the exact height of any TV, the Profile Series provides a high-fidelity home entertainment experience with an unobtrusive design.

Profile Sidemount Speakers
Models ranging from ultra-thin to reference-grade to perfectly suit any space.

Available in 11 models

— TIMBRE SERIES —

CLASSIC STYLE, AUTHENTIC SOUND

Like a fine musical instrument, our Timbre Series bookshelf speakers are handcrafted to provide full-range sound in a classic design. Perfect as standalones for dedicated listening rooms or as surround speakers in a home theater, Timbre delivers articulate midrange and detailed highs for the ultimate listening experience.

Timbre Bookshelf Speakers
Solid hardwood cabinets available in Light Oak, Walnut, Grain White, Grain Black, Matte White, Matte Black or any custom color.

Standard Finishes

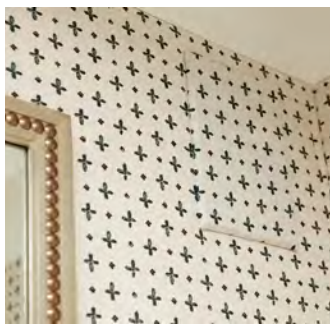

— ARCHITECTURAL SPEAKERS —

IMMERSIVE SOUND, DISCREET DESIGN

Our range of architectural speakers are finely tuned to provide balanced sound throughout the entire home. We offer on-wall, in-wall, and in-ceiling models with a variety of custom finishes and grill options to ensure seamless integration into any environment.

CUSTOM FINISHES

Our architectural speakers can be painted to match any wall color, paint code, or fabric swatch.

Vault In-Wall Speakers

Our handcrafted in-wall speakers combine high-performance with extreme versatility. Perfect as rear channels to complement our Horizon or Profile Series speakers.

Available in 5 models

Axis In-Ceiling Speakers

Premium in-ceiling speakers with square or circle grills that can be custom painted to match any finish. Available with sealed or open backs, and optional 70-volt transformers.

Available in 5 models

Detail On-Wall Speakers

Compact surround speakers handcrafted and sonically-matched for a fully immersive high-fidelity audio experience.

Available in 8 models

— AAROS SERIES —

REFINED LOW END, COMPACT DESIGN

Our Aaros Series subwoofers provide refined, cinematic sound for spaces that demand both subtlety and power. With discreet cabinet options for in-room and in-wall applications, Aaros can be hidden beneath the furniture or left out on display.

Aaros Ultra-Thin Subwoofer
10" ultra-thin subwoofer with superb tonal balance. Available with convertible down-firing kit to completely conceal beneath the furniture.

Aaros In-Wall Subwoofer
8" in-wall subwoofer perfect for applications where floor space is limited. Available with custom painted grill options.

Aaros Powered Subwoofer
8" rigid, long throw driver powered by an ultra-efficient 200W on-board amplifier to produce fast, tight and musical bass.

L3-1K AMPLIFIER

Aaros subwoofers are paired with a Class A/B subwoofer amplifier for deep, controlled bass.

— TERRA SERIES —
**RUGGED SPEAKERS TO
WITHSTAND THE ELEMENTS**

Providing the highest-performance audio for the most demanding environments, our Terra Series outdoor speakers are IP67-rated and feature marine-grade drivers in precision-fit, waterproof cabinets.

LuminSound Outdoor Speakers & Lighting
The LuminSound™ Series incorporates LED lighting and audio in one compact design that comes standard in Black & Green.

Available in 5 models

AC Outdoor Speakers
Featuring a durable Polypropylene enclosure in a variety of designs and sizes, the AC Series comes standard in Black, White & Green.

Available in 6 models

Boundary Outdoor Speakers
Constructed from solid aluminum with a UV and saltwater-resistant finish, the Boundary Series comes standard in Black & White.

Available in 2 models

CA In-Ceiling Indoor/Outdoor Speakers
The CA Series is an all-weather architectural solution perfect for shower stalls, saunas, pool houses, boats, and more.

Available in 3 models

CUSTOM TO THE CORE

We take great pride in being a completely custom shop—taking ideas from inspiration to design and fabrication. Our build-to-order approach offers the ability to customize almost every aspect of our speakers, redefining how design and technology interact to elevate your audiovisual experience.

BUILT TO YOUR EXACT SPECIFICATIONS

From ultra-thin to oversized, our speakers can be built to any dimensions to meet the requirements of your space. We provide architectural CAD drawings and visualizations to ensure the perfect fit, every time.

EXPERTLY PAINTED FOR THE PERFECT MATCH

Using advanced color matching techniques, our finishing department can perfectly match any color code, wood stain, or paint sample so that the sound stands out while the speakers blend in.

CUSTOM GRILLS TO ADD THE FINISHING TOUCH

Our grills are hand-stretched using only the finest quality, acoustically transparent fabric. Whether they are designed to blend in with your décor or match the contour of your display, our grills provide the perfect finishing touch for any application.

COMPLETELY CUSTOM

Looking for something completely custom? Work with our team of expert engineers and designers to bring your idea to life—perfectly tailored to the requirements of your space.
